## PROGRAMME

### **27 SEPTEMBER | BAUHAUS OF THE SEAS SAILS (BoSS) OEIRAS:**

4:30 PM to 7:00 PM | Walk to the Sea  
Marquês de Pombal Palace Garden, Oeiras

9:30 PM to 11:00 PM | Documentary "Mar Urbano Lisboa," José Vieira Mendes and Ricardo Gomes  
Eunice Muñoz Municipal Auditorium, Oeiras

This public program invites the local community to participate in a series of walks – "A Walk to the Sea" – to discover Oeiras in its connection to the sea. Starting at 4:30 PM in the Marquês de Pombal Palace Garden, these guided walks by various experts provide a unique opportunity to explore and think together about the territory, its history, and its relationship with its aquatic ecosystems.

At the end of the day, you are invited to watch the environmental documentary "Mar Urbano Lisboa" at the Eunice Muñoz Municipal Auditorium. The documentary aims to raise awareness about the importance of the unique ecosystem of the Tagus River Estuary and engages in a broad discussion about water quality, marine biodiversity, the future of the city, and its surrounding metropolitan area. The Tagus is Lisbon's Sea: the river, the city, the people, the fish, the resources, the ecosystem, and marine biodiversity. This is a film in defence of the Tagus River, documenting the resilience of marine ecosystems, the evolution of water quality, and the conservation of different species of marine life typical of the Estuary, also influenced by climate change.

## PROGRAMME

Bauhaus of the Seas Sails or Bauhaus do Mar is one of the 6 initial "Lighthouse Demonstrators" of the New European Bauhaus initiative, promoted since 2020 by the European Commission to promote the implementation of the Green Deal. It involves a consortium of 18 partners (municipalities, universities, and cultural institutions) in 7 European cities – Lisbon, Oeiras, Venice, Genoa, Hamburg, Malmö, and Rotterdam – to carry out pilot projects between 2023-25. Led by the Instituto Superior Técnico, Bauhaus do Mar has national partners: Calouste Gulbenkian Foundation and the Municipalities of Oeiras and Lisbon. Its goal is to create a series of pilot projects that experiment with new design models from a more-than-human perspective – shifting the focus from humans to promote an ecological relationship with various aquatic ecosystems: river, sea, lagoon, delta, or other watercourses. In short, the sea as a space for creation, innovation, and entrepreneurship. Between September 26 and 29, Bauhaus do Mar will hold its first gathering in Oeiras.
